

VTC

Virginia Tech Carilion

Research Institute

Do you have:

- Prediabetes?
- High cholesterol?
- High blood pressure?

You may be eligible for a compensated research study!

Sessions available 8AM-8PM and weekends as needed!

Virginia Tech Carilion Research Institute is recruiting prediabetic Carilion Clinic patients ages 18 and older for the MINDD research study. The purpose of this study is to look at decision making in adults with prediabetes plus high cholesterol or high blood pressure or both.

This is not a treatment study.

You will be asked to:

- Participate in 4 visits to our lab
- Complete memory games, food surveys, and future thinking tasks
- Wear an activity monitor for 1 week
- Complete an fMRI scan (get a disc of images of your brain!)
- Complete 3 dietary recalls

Compensation up to \$225 for completing the entire study!
