

Dear Vendors:

3/5/2020

Thank you for your support related to PPE conservation efforts at Carilion Clinic. We have made positive steps, and request that these measures, and a few new caveats, continue until normal supply chain functions are restored.

If your presence at the hospital is not critical, please refrain from coming to campus. If you are on campus, please do not enter any restricted area (OR/procedural rooms) unless the physician requests you. If you do enter a room, remain in the room for the duration of the case.

At this time, we cannot accommodate the training of new vendors, observation by managers or others from your company. Only essential personnel may enter the surgical suite or procedural areas.

Please be respectful if you are questioned or unable to enter a room.

We continue to monitor the situation and will communicate as needed.

Thank you for your cooperation.

Respectfully,

Supply Chain
